This benefit does not exist. It is a research concept, not an offer.

EXTRA BENEFITS FOR THE LIFE YOU ACTUALLY HAVE

$300 a year. Spend it your way.

One allowance on top of your health plan, for the kinds of care young adults told us matter most to them. You decide how to split it.

DENTAL

Cleanings covered. Help when you need a filling.

- Two cleanings and X-rays a year
- Money toward fillings and other dental work
- See a dentist near you

THERAPY & MENTAL HEALTH

Talk to someone, without the runaround.

- Covered therapy or counseling sessions
- No referral needed to start
- In person, by phone, or by video

EVERYDAY HEALTH

The stuff insurance usually skips.

- Cold and allergy medicine
- Vitamins, first aid, and sunscreen
- Order online or pick up in store

HOW IT WORKS

1 Add it

Choose it alongside your health plan when you enroll.

2 Use it

Spend your $300 across these benefits in whatever mix fits your year.

3 See it

Your balance and what it covers live in the same app as the rest of your care.

> **Help us get the details right.**

> See what is included and tell us what you would want at kp-fung-saffreon.vercel.app/plan

The $300 allowance and everything inside it are placeholders used for research. Nothing here has been priced or approved.

Made by a student research team at UC Berkeley. No health insurer is offering this, and nothing here is an offer of coverage. If enough people tell us they want something like this, that is the case we will put to the people who design health plans.
